

REACTIVATION OF MAIL CODES

We have reactivated the mail codes that were previously inactivated for the State of Michigan vendor number 2386000134.

When entering a voucher to another state agency, users must use the new Interagency Voucher (IAV) process. Users must enter a "Y" on the 1500 invoice screen in the interagency field to create a "Q8" interagency voucher document. The new process does not issue warrants.

Do not use "W8" or "V8" types of documents when making a payment to another state agency.
